SUMMARY

Proficient software developer with extensive experience in Django, Flask, Node.js, Express.js, and React.js. Successfully built scalable web applications and efficient RESTful APIs. Demonstrated strong problem-solving abilities and effective team collaboration on various projects, including an advanced event management system and real-time messaging functionalities.

EDUCATION

Olusegun Agagu University Of Science and Technology

Bachelor's Degree in Computer Science
2020-Present

SKILLS

- **Backend Development:** Django, Flask, Node.js, Express.js
- **Frontend Development:** React.js, JavaScript, Bootstrap CSS, Tailwind CSS.
- **APIs:** Building scalable RESTful APIs
- **Tools & Technologies:** Python, JavaScript, JWT, Socket.IO
- **Other Skills:** Effective collaboration, problem-solving, debugging, real-time messaging, authentication

CERTIFICATIONS

Udemy:

- [ReactJS - The Complete ReactJS Course For Beginners](#)
- [Complete jQuery Course: Learn From Beginner To Advanced](#)
- [CSS, JavaScript And Python Complete Course](#)
- [JavaScript for Beginners: The Complete Course for Beginners](#)

Coursera:

- [Crash Course on Python](#)

PROFESSIONAL EXPERIENCE

Software Development Intern

ACME SOFTWARE LAB | April 2024 - Present

- Developed RESTful APIs for various applications using Node.js and Express.js
- Integrated JWT-based authentication and real-time messaging with Socket.IO
- Collaborated with front-end developers to ensure seamless integration of backend services
- Focused on learning and applying Django for backend development
- Assisted in developing an event management system with React.js frontend
- Worked on multiple user roles and advanced event management features

PROJECTS

ELDERLY APP

- **Description:** Developed backend features including endpoints for audiobook, community posts, comments, user medicine tracking, news, and real-time messaging.
- **Technologies:** Node.js, Express.js, Socket.IO
- **Link to project:** [Elderly App](#)

DEATH CERTIFICATE GENERATOR

- **Description:** Created a web application to generate death certificates using provided data such as name and date of death.
- **Technologies:** Django, OpenCV
- **Link to project:** [Death Certificate Generator](#)
